

Water Trails Master Plan
2018 Public Input Meetings Survey

- 1.) What city do you live in?

- 2.) Are there any maintenance problems you are aware of at any river access area in Black Hawk County?

- 3.) Is there anywhere you would have liked to use the restroom, but there was none available? If so, where?

- 4.) Is there anywhere you would have liked fresh drinking water, but there was none available? If so, where?

- 5.) Have you ever integrated bicycling in to your paddling trip? If so, where?

- 6.) Is there anything law enforcement and emergency response officials should consider to improve their service and the safety of the rivers?

- 7.) Would you participate in an "Adopt an Access" program and volunteer to clean up the access areas on a regular basis? If so, please provide contact information.

- 8.) What improvements would be most beneficial to you between the river and your city's downtown area?

- 9.) Please rank the following list in order of what is most important to you
(1 = most important, 6 = least important)

_____ River access areas are clean and free of trash
_____ River access areas function well for loading and unloading
_____ River access areas include water quality and habitat considerations
_____ River access areas include trails for walking and bicycling
_____ River access areas include shelters, playgrounds, disc golf, and other park features
_____ River improvement are inviting and easy for families with children

- 10.) Please write any other comments, suggestions, or concerns below:
